

Corporate Interior Project Designer – Houston, TX

Ziegler Cooper is seeking a highly professional Corporate Interior Project Designer to work in our Corporate Interiors Studio. The ideal candidate for this position will be a talented individual with a strong portfolio of personal work and experience with a variety of project sizes.

Ziegler Cooper Architects is a company on the rise. Piloted by charismatic principals and a dynamic staff, Ziegler Cooper Architects employees share a mutual desire to be the best. We truly believe what sets Ziegler Cooper Architects apart is an added ingredient which can best be described as an entrepreneurial spirit.

Responsibilities may include, but are not limited to:

- Participate in marketing presentations with project team.
- Provide programming services on select projects including client interviews, development of space standards, projection of space requirements and documentation of requirements on Earnest software.
- Provide design leadership role on architectural interior design services including schematic design and design development for corporate interior projects assigned to you.
- Select and/or coordination of all interior finishes for your projects.
- Select and/or coordination of all furniture products specified for projects under your control.
- Meet Client's budget and schedule requirements within fee allocation provided by Project Manager.
- Meet minimum sustainability standards including specified LEED CI standards where applicable.
- Assist project team with project closeout including completion of closeout form, project Descriptions and project photography.
- Report to Project Manager for day to day functional responsibilities and Director of Interior Design for overall design direction and approvals.

Qualifications:

Minimum educational, licensing and experience requirements (1 required)

- 4 year Interior Design Degree
- Registered Interior Designer in Texas
- 5 -7 years of experience with a minimum of 7 years' experience in Corporate Interiors
- Experience with Corporate Interior projects ranging in size from 10,000 rsf to 300,000 rsf.
- Proficiency with AutoCAD, Excel, MS Word is a requirement
- Experience with Revit, Sketch up and or Earnest programming software is a plus
- LEED accreditation and experience with LEED CI is important but not a requirement
- Knowledge of office furniture products, services and specifications is critical to the design of corporate interior spaces

Notes: Only qualified applicants will be considered. Please send your resume and portfolio of your design work to: hr@zieglercooper.com. Please keep attachments under 1MB)
